BRIEF ITEMS OF LOCAL INTEREST

City Bridge Undergoes Repairs—Show Boat to Show On Indiana Side.

The family of Leibovitz, of Hancock county applied to the county court, Louisville lately to have their name changed from Leibovitz to Lee. Mr. Frank Leibovitz, his three sons and daughters will hence forth be called by the name of Lee. The father is a native of Bessarabia, and is a thrifty real estate dealer in Hancock county.

The Cloverport bridge over Clover Creek was repaired last week both the side walk and driveway. It was stated by one of the men repairing the bridge that the timbers were so rotten it is a miracle that the bridge has held up as long as it has. The town bears the expense of repairing the side walk and the county keeps up the driveway. Messrs Marion Behn and Joe Beavin had the contract for making the repairs.

The Ohio river at this point has been so high and muddy this year that the swimmers have been deprived of their bathing beach. There have been only a very few times this summer when swimming could be indulged in.

Wild blackberries are selling on the local market at 30c, 35c and 40c per gallon. The berry pickers haven't a regular market price, and since the fruit is so plentiful this year competition is strong. Cultivated berries sell for 50c per gallon.

Five automobiles filled with Gypsy travelers passed through Cloverport, Sunday morning. The cars had different State auto licenses on each one. They crossed the river here from Tobsinsport and went to Hardinsburg.

The new Columbia Show Boat will show at the Tobsinsport wharf on Thursday evening. The advance agent claimed the \$100 State license which the last boat paid it not lawful and to avoid paying this license, the boat will land on the Indiana shore.

Mr. Boone, a Federal Highway Engineer, says the contract for the Federal road through Breckinridge county will be advertised this month. Engineers are going over the route this week taking notes on the soil and rock conditions.

Contractors are already at work on the Federal road in Meade county at Brandenburg and Grahampton.

DEPUTY ASSESSOR 12 YRS. HAS GOOD RECORD.

—Mr. Lee Stewart, Union Star Raises Assessment in His District \$50,000.

Mr. Lee Stewart, deputy Tax Commissioner of the 4th District whose home is in Union Star, was in Cloverport, Thursday getting his new assessor's books for 1920. Last year Mr. Stewart had the most correct list of tax assessments of any of the deputies. The County Board of Equalization was able to check up Mr. Stewart's book in 2 1-2 hours, which is a remarkably short time.

Mr. Stewart has been a deputy assessor in this county for twelve years. He is thoroughly acquainted with his territory, conscientious in making the correct valuations, and has raised the assessments in his district \$50,000.

PARENT-TEACHERS ASS. GRATEFUL

Business Concerns of Hardinsburg Help to Make Carnival Success.

Hardinsburg, July 12. (Special)—The Parent-Teachers Association of this place wishes to express its appreciation to all who helped to make the Carnival the great success it was, especially to the Farmers Bank & Trust Company, The Hardinsburg Mill, B. F. Beard & Co., Kincheloe's Pharmacy, Hardinsburg Pharmacy, The City Grocery, Reeves & Bowmer, Mr. L. Walker, Mr. Sills, Mr. Clint Lewis, Mrs. McCubbins for the prizes they donated for the races; to Mr. T. J. Hook, Mr. White Kincheloe, Beard Bros., The Hardinsburg Mill and B. F. Beard & Co., for truck service given. The association also wishes to express its appreciation to the Hardinsburg ball team for their generous donation of the proceeds from the game.

The entire proceeds from the picnic will be used for needed improvements of the school house and grounds and plans will soon be perfected to get the work under way and finished by the opening of the school term.

CHAUTAUQUA TO OPEN TUESDAY

First Day's Program Starts With Junior Chautauqua at 9 o'clock. Tent Will be on Reid's Corner.

The Central Community Chautauqua Company opens its return engagement in Cloverport with a five days program beginning next Tuesday. The sale of season tickets has been slow. Only two tickets were reported sold on Monday afternoon, but the sale will be larger this week it is expected.

The chautauqua tent will be pitched on the side street between L. T. Reid's and the Misses May's home, the same place occupied last season. The mornings will be taken up with the Junior Chautauqua. The children will have a Junior Leader who will relate stories each morning and on the last evening the children will have The Big Toyshop Pageant.

The dramatic production, Polly of the Circus will be on the afternoon of the fifth day.

JULY CLEARANCE SALE PRICES CORRECTED FOR GOLDEN RULE STORE.

In last week's issue of The Breckinridge News the July Clearance Sale prices at the Golden Rule Store were quoted incorrectly in three of the items of the Store's advertisement. Ladies Fiber Silk Hose in white and black, all sizes, should have been 25c in place of 32c; Children's socks, sizes 4 to 8 should have been 25c in place of 32c; Liberty Aluminum ware quoted at \$1.66 should have been \$1.69. The corrected prices are good for this week at the Golden Rule Store.

THE DOG LICENSE

Breckinridge Circuit Court. Hon. J. R. Layman, Judge Breckinridge Circuit Court: We, the Grand Jury duly selected and empaneled at the regular May term 1920 of Breckinridge Circuit Court, beg leave to report that we have completed our investigations and labors.

We wish to report that we find that the law requiring all owners of dogs in Breckinridge County to procure license for same on or before the first of each year is being practically ignored and that while the assessor reports more than 1500 dogs listed in the county, and while there were licensed last year about 2000 that fewer than 1200 have been licensed this year, and that the law is being practically ignored. We therefore refer this matter to the next grand jury and request that said jury go fully into the matter in a systematic way and take such action as to it seems advisable.

Our reason for referring this matter is that we have not sufficient time to investigate these matters and we direct that the clerk of this court record in report in his order book and that the County Clerk have same printed in the county papers.

J. B. Herndon, Foreman.
G. O. Blanford, Sec'y.
A copy attested: P. M. Basham, Clerk Breckinridge Circuit Court.
A. T. Beard, County Court Clerk.

The report of the state commissioner of agriculture shows that there were sold in the Green river district during June 45,630 pounds of tobacco for which the farmers were paid \$3,373.52, an average of \$7.40. The total amount of tobacco of all grades sold in Kentucky during the month was 4,361,810 pounds for which were paid \$519,103.44, an average of \$11.89.

M'DANIELS VS M'QUADY TEAM

McDaniels Lost 8 to 9; Handicapped By Players Being Scarred Up a Bit.

McDaniels, July 9. (Special)—McDaniels and McQuady played the hardest fought game of the season here yesterday. In the eleventh inning each team fought hard for the winning run. The local team was handicapped throughout the contest. Basham being hit in the head with a bat during practice and pitcher Galloway, was hit on the finger of his pitching hand, which almost put him out for two innings.

The McQuady fans and players seemed to want to "wangle" with the umpires and delay the game as much as possible to rest their pitcher, so they say, but anyhow, "Bill" pitched excellent balls throughout the contest. Jack Jolly come over with his team. Jack was some times up in the air and occasionally on the ground and things were just a little too hot to suit Jack. Fred Rhodes, McDaniels, old veteran, catcher, came in home and caught the game for his old team.

This is the second game Fred has played in five years, but he did it in his old time way. Frank Storms landed on one of Mattingly's benders for a beautiful home run. "Froggy" Miller cut a few "doodles" around first base but failed to see anything about "Froggy" to burn the grass.

The ball diamond will be changed. Their tract near the mill and up-to-date ground will be made. Local team will play the Leitchfield American Legion team at Leitchfield, July 18th.

The score:
Innings 1 2 3 4 5 6 7 8 9 10 11 T
McDaniels 0 0 0 1 2 3 0 0 1 0 1 8
McQuady 0 0 0 3 0 3 0 0 1 0 2 9

Bred Gilts for Sale

BRED TO FARROW IN APRIL

When you can save all the pigs, these gilts are good individuals of the very best breeding that I have been able to buy at any price, and bred to a son of Black Price the 1918 Grand Champion of the world and Big Uncle Sam by Big Buster by Giant Buster, The Epoch Maker, the latter hog is the largest boar that I have ever seen for his age and I have looked over some of the very best ones. These hogs are priced right, regular breeders stuff at farmers prices that we can all afford to pay.

If you want a herd boar that will put you in the limelight, a real boar, a son of Black Price, this is breeding that you cannot find anywhere else at three times the price that I am asking for him a great pig for some one that needs him at a bargain. This pig is right for hard service about eleven months old.

NEW YORK WASTES MILLION LOAVES OF BREAD EACH WEEK.

More than 1,000,000 loaves of bread are thrown away each week in New York, according to a report made by Mrs. Louis Wedzmillier, Deputy Markets Commissioner.

"The campaign against food waste showed bread is one of the chief items," Mrs. Wedzmillier's report states. "It is said more than 1,000,000 loaves weekly or about 690,000 bushels of wheat a year are wasted in New York City alone."

Housewives told Mrs. Wedzmillier ingredients that go to make stale bread into palatable desserts, such as sugar, milk etc., are so dear that it does not pay to buy them to save the bread. The hotels are entering into the food waste campaign and have offered to contribute the knowledge and experience of their best chefs to teach economy in cooking and buying.

INCREASED HOME EFFICIENCY POPULAR PROJECT.

Increased home efficiency is one of the popular projects in the counties in which home demonstration agents are maintained by the United States Department of Agriculture and the agricultural colleges. Last year 166 counties in the North and West carried on county-wide campaigns for increased home efficiency, and 1,077 farm families in the same territory were assisted during that time in rearranging farmhouse or kitchen as an important first step in efficient house-keeping.

In the 15 Southern States last year 1,163 new houses were built according to plans advised by the home demonstration agents, 2,736 remodeled, and 26,811 labor-saving devices made or purchased.

DRAMATIC SINGING OPENS ONE SESSION OF DEMO. CONVENTION

At 11:21 o'clock Chairman Robinson called the convention to order for its fourth day's session.

Whole sections in the State spaces were still unoccupied in some parts of the hall. The delegates who were present wanted to talk rather than come to order.

After sending the police through the aisles to clear them, the chairman got the delegates seated and Bishop Nicholas of the Episcopal diocese of San Francisco offered a prayer, concluding by leading the convention in a recital of the Lord's Prayer.

Then the organ pealed off "The Star Spangled Banner" and the convention choused in the strains.

At the close of the singing, Judge Murasky of San Francisco took a place at the Speaker's stand and recited the "Battle Hymn of the Republic" while the great organ softly throbbed the melody of the martial air in accompaniment.

After reciting the first stanza and coming to the chorus, the judge turned his eyes to a far gallery, where a clear toned soprano rang out with the refrain, beginning softly at first and then joining in the peal of the organ, as it burst out into the mighty thunder of "Glory, glory, hallelujah." Then the audience joined in the rolling chorus and the great auditorium was filled to the very roof with song.—Boston Globe.

SHRINKAGE OF WEIGHT IN LIVE STOCK SHIPPING

Of 54 carloads of sheep including 11 single-deck and 43 double-deck cars, the cost of loading and bedding cars averaged \$0.019 per 100 pounds live weight, according to figures furnished the Federal Trade Commission by the United States Department of Agriculture. Other marketing expenses, including freight, varied from \$0.239 to \$1.97 per hundred-weight. The shrinkage in weight varied from 3.53 to 8.57 per cent, the majority of the shipments averaging approximately 8 per cent.

Similar records on 253 carloads of hogs showed the cost of loading and bedding to average 1.5 cents per 100 pounds live weight; feed at market approximately 8 to 9 cents; commission charges 4 to 10 cents; miscellaneous expense, 2 to 10 cents, averaging approximately 5 cents; and the total cost of marketing, including freight from varying districts approximately from 33 to 50 cents. The shrinkage in weight on 873 carloads of hogs varied from 9.88 to minus 4.59 per cent.

FISK RUBBER TIRE CO. GETS A BIG CONTRACT.

Probably the biggest tire contract ever awarded in the state of North Dakota, was recently given to the Fisk Rubber Co., of Chicopee Falls, Mass. The contract was awarded through the Massachusetts Company's Bismark Branch by the State highway commission, and it called for equipment for 300 military trucks and 50 touring cars, which the commission has borrowed for road work in that state. A few of the trucks, the majority of which are of the four-wheel drive type, and which range from one and a half to five ton capacities, will be equipped with solid tires but a considerable number will be mounted on heavy pneumatics.

These trucks are distributed by districts, and are used for hauling materials, patrol work and upkeep. They enter into the maintenance of the roads already constructed, each of the larger trucks being capable of keeping in good condition a sizable stretch of highway.

Fisk Tires were chosen because of the wonderful results being obtained all over the United States by Fisk Truck Tires.

OIL WELL DISCOVERED IN HAWESVILLE; MAY PRODUCE FROM 5 TO 10 BBLS.

The oil well in this city was shot early Thursday morning and the promoters seem very hopeful that they have struck a well that will produce in paying quantities. They do not claim any thing like a gusher but say every indication points to a well from five to ten barrels a day. They seem perfectly satisfied that other wells of like value can be found in and near Hawesville, and the combined flow of several wells of this type at the present price of oil would prove a very profitable adventure. The crew is again at work on the well near Goering in an effort to go deeper in search of the golden fluid.

When the shot was fired in this city, Thursday morning, the oil and water was thrown about fifty feet in the air and littered covered the trees and surrounding foliage. A large number of people were present when it was shot.—Hawesville Clarion.

PRODUCTION OF ASPHALT IN THE UNITED STATES.

A preliminary estimate of the production and sales of asphalt and native bitumens and allied substances in the United States in 1919 had just been made public by the United States Geological Survey, Department of the Interior. The asphalt produced from domestic petroleum amounted to 600,000 short tons, valued at \$9,000,000 an apparent increase over 1918 of 72,425 tons and of \$1,564,796, respectively. The asphalt produced from Mexican petroleum amounted to 672,000 short tons, valued at \$7,917,000, an increase from 1918 of 21,756 tons in quantity and a decrease of \$2,407,020 in value. About 115,000 short tons of native bitumens and allied substances valued at \$1,000,000 was produced in 1919, an apparent increase over 1918 of 54,966 tons and of \$219,192.

AERIAL FUNERAL; ASHES SCATTERED FROM SEAPLANE

New York.—Just before the storm one afternoon recently a seaplane left the foot of Eighty-sixth street, North River, and made a brief flight, circling the Statue of Liberty, carrying two passengers, Lieut. Frank Mallen of the United States Marine Corps and an undertaker's employee. As the plane circled the statue the latter scattered the ashes of Mrs. Sarah Jane Brown, temperance advocate and writer of children's stories, who died June 21, at her home 67 West Sixty-ninth street. With the ashes were tossed out, to swirl down to the base of the statue and into the adjacent waters, nine white and two red carnations, representing Mrs. Brown's age, 92 years.

The aerial funeral was in conformity with Mrs. Brown's request found after her death in a sealed letter written fourteen years ago. At the North River pier before the ashes were taken aboard the seaplane a ritual which had been composed by Miss Kate Brown, daughter was read.

\$3,000,000,000 IS LONE BID FOR LEVIATHAN

Washington.—An offer of \$3,000,000 for the giant passenger liner Leviathan and \$800,000 for the liner DeKalb were the only ones that had been received when sealed bids on these two former German liners were opened to-day at the Shipping Board.

The United States Mail Steamship Company made an offer for the Leviathan upon condition that the board

loan \$6,000,000 to the company to be applied to reconditioning the vessel and furnish, free of charge, a pier for the liner during the reconditioning work. Under the company's proposal the loan would pay 5 per cent interest.

A check for \$100,000 accompanied the bid, and the company offered to apply 25 per cent of the net earnings of the vessel for a period of ten years upon the purchase price and the loan.

The American Ship and Commerce Company bid for the DeKalb, which it would operate in its passenger service to be inaugurated between the United States and Germany. A check for \$80,000 accompanied the bid. The board reserved decision on the offers for the vessels.

REPORTS OF COAL FAMINE ARE WITHOUT TRUTH.

Washington, July 8.—Assurance of an adequate supply of coal to meet all the domestic requirements during the coming months was given today by George H. Cushing, managing director of the American Wholesale Coal association, who declared the reports of a famine unfounded.

LATE SPRING PROMISES BUMPER YIELD.

The spring of 1920 was unusually late; in only four years in the past 37 years has the progress of plowing to May 1, been more backward than this year, namely, in 1912, 1904, 1903 and 1899. The outturn of 1912 was bumper crop yield, 1904 large crop yields, 1903 slightly above average, and 1899 about average.

MAKE IT A GOOD MEETING

On Thursday of this week The Breckenridge County Sunday School Association meets in Cloverport. The County President, Mr. Dowell, and his co-workers are anticipating the best meeting here that the association has every held. So the Sunday school workers and our townspeople in general do not want the President, his co-workers and the delegates disappointed.

The County Sunday School Association includes all denominations. We are to have here delegates from all over the county and representing Sunday schools of the different denominations. Cloverport welcomes the opportunity to entertain men and women who are interested and engaged in the work of Christian education. Providing Sunday schools that will interest the young people of today is a business that requires a versatile mind; and it requires the combined efforts of all Christian denominations.

The association meetings will be open for everyone on Thursday morning and afternoon, and this coming together will strengthen our faith in one another's belief. Let's lay down our work, attend, and make it a good day.

We note with pleasure that the Breckenridge County Farm Bureau is becoming a strong factor in creating better farming conditions among our farmers. We have needed an organization like this for many years, and The Breckenridge News takes pride in seeing the Bureau developing into a permanent organization.

"There is strength in unity," beyond all question, and if Breckenridge county's farmers are organized into one great body with one great aim for better agricultural conditions in the county, they are bound to get results. America won the war by uniting all of its forces in one aim—to overcome Germany. So Breckenridge county's farmers can, through this Farm Bureau develop acres of diamonds, as it were for the entire county. But the Bureau must have the support of everybody in the county. Support it with encouragement and cooperation, and note through the county papers its activities, and if you are a farmer and not a member, become one before another sun sets over your head. The Farm Bureau is the farmer's friend.

An Irvington Citizens suggests that Breckenridge county have a Home Coming similar to the one in Meade county. The Breckenridge News heartily endorses the suggestion of the Irvington Citizen, and the Editor will lend his assistance in every possible way.

The News invites any further correspondence on having a Home Coming, and the letters will be published if they bear the writer's signature.

Senator Harding insists that he wants this to be a campaign distinctly of parties and not of personalities. But is looks as if personalities might play a very strong part in the presidential race in spite of parties.

The Breckenridge News enters its forty-fifth year of success this month, and the Editor is approaching his three quarters of a century milestone.

Next week is chautauqua week. Have you bought your season ticket?

What Cloverporters hope to vote for in the November election is waterworks.

We have four months now for deep consideration.

Americanism

By LEONARD WOOD

Equal and exact justice to all men, of whatever state or persuasion, religion or politics.—Thomas Jefferson: First inaugural address.

AN intending immigrant who has read these words finds in them sufficient impulse for his change of state. Perhaps nowhere can there be found a better description of the foundations of American political life than in these words of the third president. In them is to be found the essence of Americanism, as the fathers intended it to be.

Americanization, whether of the native born or the foreign born, includes within its scope an effort to make all citizens realize that freedom of thought and the right to express it are birthrights, provided of course that the freedom does not become license and the words are not counter to the spirit of Americanism itself.

For ages the right to think and to speak the thoughts of the heart were denied to men in many of the countries of the world. America was the first real refuge for those who were seeking a place where they could, with others, have a voice in their government and the right to pray to God after a manner dictated by their consciences. It was one among the few countries of the world one hundred years ago where the words "equal and exact justice to all men" meant what they said. The words are as true today of the United States as they were when Jefferson spoke and this is said in full knowledge of the fact that complaints of inequalities of justice frequently are heard. All things are comparative. Justice falls less frequently in the United States than elsewhere. It is within the power of people acting under American impulses, using their voices and their votes to the purpose to make all complaints groundless and to bring that perfection of procedure which shall insure to justice a permanent place in this country's life.

"Of whatever politics," Americanism pays no heed to the color of a man's politics. It is in the nature of things, that a man's political opinions are his own not to be interfered with nor their expression denied.

Americanization, and again let it be said whether of the native born or of the foreign born, does not concern itself with a man's political faith, but it should concern itself deeply with giving a man a proper understanding of the bases of the political faiths of the country of which he is a citizen.

"Equal and exact justice to all men, of whatever state, persuasion, religion or politics." This is the foundation upon which the great American political faith is builded.

Wants a Home Coming For Breckenridge County.

The Editor of The Breckenridge News: My dear friend John (possibly I should have said Mr. Babbage) I attended the Home Coming at Brandenburg, last Thursday, also attended their Home Coming four years ago. Certainly both were great occasions. Socially and in renewing old acquaintances such gatherings help one to forget his or her little self. To have someone step up to you, slap you on the shoulder and call you by name you look them over but can't remember having ever known them and then you do the same to someone else. I had thought something about it before and now I'm wondering if Breckenridge county couldn't have a Home Coming! I think that one of the Home Comers said that the people of Meade county were the best people. No doubt to him they are. We would not say the people of Breckenridge county are the best people on earth. However, in more ways than one, we believe that the people of our County will compare favorably with those of any county in our State. Surely everyone knows what that means.

For the next four or five months political lines will be pretty closely drawn each fellow kind of trying to stay with his crowd. (Wonder if the women will too!) We all claim that we are willing for a person to be religiously inclined to whatever they may please to be, why not politically and otherwise? Renewing our acquaintance occasionally, I think, helps us to be more charitable one toward the other.

I note in your paper there is a probability of a County Fair. A Home Coming and a County Fair separate would possibly be more than we would like to take on. If we are to have the Fair, and I hope we are, let not combine a Home Coming with it? Mr. John, if you are anyone else in our County favor such a proposition say so! If you do not you will not have caused any offense to this party. Respectfully,

July 10-20 Irvington Citizen.

FORD BUYS A BRAKE THAT COSTS \$2,000.00.

Seattle, July 12.—Carl R. Hines, 40, filer in a saw mill, is one of the richest men in Seattle today.

Hines has patented and sold to Henry Ford a new automobile brake for millions.

The brake is applied by a light pressure of the foot through a set of cams.

It is reported on good authority that Hines has received \$2,000,000 cash, as well as royalties.

And Hines says he intends to keep on working as a saw filer.

NEW WHEAT SELLS FOR \$2.70 ON PADUCAH MARKET.

Paducah, Ky., July 12.—The first wheat to be sold in Paducah this year has been bought from a Livingston county grower. The price paid was \$2.70 a bushel and threshing of the crop will begin the first of this week. The crop was bought by the Paducah Milling Company.

Subscription Price Advances to \$2.00 per Year August 2, 1920

The increasing prices on all materials and paper going into the publication of The Breckenridge News has forced us to advance the price to \$2.00 per year effective August 2, 1920. \$1.00 will buy the News for six months and 50 cents will buy it for three months. Renewals at the old rate will be accepted if handed to us or mailed to the office prior to August 2nd.

We formerly paid 3 cents per lb. for paper; we have now on our floor several tons of paper for which we paid \$270.00 per ton; as against old rate of \$60.00 per ton, an advance in excess of 450 per cent. We are paying our help from 100 to 150 per cent more than we have ever paid them. Within the last three years we have put in almost an entirely new equipment to make our plant more efficient to keep down operating expenses. We have advanced our advertising rates 100 per cent and shall probably have to make further advances if the present scale of advancing prices in materials and labor keeps up.

Many weekly papers and not a few dailies have gone by the wayside in the attempt to continue publication under present difficulties. Their failure has been due to the simple cause of not taking in more than was paid out. The News, we believe, has been a helpful as well as a pleasant factor in the lives of our people for the whole period of its 44 years of existence. We believe that both our advertisers and subscribers, in view of the facts explained above will welcome this opportunity to help us meet a difficult situation.

Yours truly,

Near East Relief

Tala C. Daniel

See in above cut how Armenia is still crying to America for help! Would you love to dress in such garments? Will not those of us who have pledged relief in Cloverport report monthly to Miss Edith Burn, Treasurer for Cloverport? Those who pledged in Stephensonport pay monthly to Mrs. Roland Smith. Those in Hardinsburg pay monthly to County Treasurer B. F. Beard.

Can you look at this picture and steel your heart and your purse, to suffering humanity? There is a dignity even to rags if the rags be clean—but remember these people have been without soap for four or five years, and no combs of any kind, and these rags taken from dead bodies often are alive with vermin, and some of them have scratched themselves to death! God pity us if we go, or send not to their relief!

TOO MUCH RISK.

"How much do you charge a feller to take a wash?" asked a grimy-looking individual of the cashier at a public bathhouse.

"Fifty cents a bath, or 12 for \$5.00" replied the cashier. "It would pay you to buy a \$5 ticket!"

"Nethin' doin'!" answered the grimy individual decisively.

"How do I know I'm goin' to live 12 years?"—New York Evening Post.

CARTER'S LANDING

Mr. Editor. It wasn't Cloverport people that we are trying to get awake. It was myself and others that have been putting up too much of this Rip Van Winkle stuff. It's time we were getting up rubbing our eyes putting up some muscle and mon. That's what it takes to build roads by gum. If you don't believe it ask Elec Hall. Elec says the first blast they put in blew out a stump with a big chunk of blue muck and it lit a stride of Elec Ahl's barn in Perry Co., Ind. Elec Ahl says its the first time he ever owned a barn with a chimney on it. Elec will probably sue the boys for damages trespassing, murder or something.

We met Hon. Steve Wilson the county Assessor (we mean assessor) yesterday. My books are open now come around and be assassinated. Here are some of the questions asked. Got an income? No, sir. Have been chasing that thing for fifty years haven't caught up with it yet. Got a bank account? Yes but it's so small you couldn't find it with a field glass. Got real estate? Yes dreamed last night we owned thirty acres of land but of course we awoke too soon to have to pay taxes on it. Got any clothes? Yes two suits of Sunday overalls and they belong to paw. Are you married? No, but this is leap year and we are expecting several proposals by the end of the year. Now look here Mul I've spent half an hour on you haven't found enough taxable property to pay the war tax on a dish of ice cream. Have a notion to run you in for vagrancy. We disappeared around the corner.

The Bachelors Club is offering a considerable sum for any clue to the whereabouts of Otto Walz, of Hawesville. Last seen of him was boarding a matrimony special for Honeymoonville. He has disturbed the society of the bachelors.

At a meeting of the Bachelors club Wednesday night President Emil Nolte slammed down the gavel, up bobbed James McGovern an overseas veteran and says President if you recollect some time ago we lost by stage fright our goat I make a motion that we send to Sears & Robb's for another. The President called to James Hawkins the treasurer and says "James how much money have we in the treasury?" "When the boys pay their dues we will have at least 38c." Now come on across boys lets get a new goat. Tom Basham a well known farmer and politician from Hites Run dropped down here one day last week. Says he had a fine trot of clouds until the rain. The clouds melted, he has no crop left. He says the Democratic party is gone this time. We asked him why. Haven't you heard about Joe Beavin he is going to vote the Republican ticket this time. So now what's the use of the Democrats putting up anybody for president. Ernest Styles, Alton Mattingly, Herman Miller, and Elec Hall say that the dynamiting is heavy down on the pike the mud turtles come up and peep out to see what the war is all about.

FARM BUREAU NEWS

Conducted by JOSEPH W. HARTH, County Agent

The Breckenridge Farm Bureau has established offices in the J. R. Eskridge Building in the Court House square in Hardinsburg. It is ideally situated, accessible to farmers at all times, and it is expected that they will make it their headquarters while in town. The County Agent will make his headquarters in the Farm Bureau office and any farmer whether a there. A competent stenographer has been secured who will have charge of the office.

Beginning with this issue of the paper a regular Farm Bureau column will be published each week. This will contain matters of interest and value to Bureau members and other farmers.

Water Glass Method of Preserving Eggs.

A good method for the preservation of eggs is the use of water glass or sodium silicate. If the price of water glass (sodium silicate) is about 30 cents a quart, eggs may be preserved at a cost approximately 2 cents a dozen. It is not desirable to use water glass a second time.

Use 1 quart of sodium silicate to 9 quarts of water that has been boiled and cooled. Place the mixture in a 5-gallon crock or jar. This will be sufficient to preserve 15 dozen eggs and will serve as a guide for the quantity to preserve larger number of eggs.

(1) Select crock and clean it thoroughly, after which it should be scalded and allowed to dry.

(2) Heat a quantity of water to the boiling point and allow it to cool.

(3) When cool, measure out 9 quarts of water, place it in the crock, and add 1 quart of sodium silicate, stirring the mixture thoroughly.

(4) The eggs should be placed in

the solution. If sufficient eggs are not obtainable when the solution is first made, additional eggs may be added from time to time. Be very careful to allow at least two inches of the solution to cover the eggs at all times.

(5) Place the crock containing the preserved eggs in a cool, dry place well covered to prevent evaporation. Waxed paper covered over and tied around the top of the crock will answer this purpose.

First Crop of Potatoes as Seed for Second Crop.

As many farmers are showing interest in the using of first crop potatoes as seed for the second crop the writer believes it wise to take this subject up in this column again. The following precaution should be taken:

(1) Dig the first crop as soon as possible.

(2) Use only well matured stock.

(3) Place the potatoes in a shady place, if possible under a tree where there will be shade but not in the direct sunlight.

(4) Sprinkle once each day with water.

(5) Do not cover with straw.

(6) Plant only seed that has put out sprouts.

This method has in some cases given good results, however in many instances poor stands have resulted from the improper care of the seed before planting. The stand secured will depend entirely from the care of the first crop after digging until they are planted. It usually takes from two to three weeks to prepare seed for planting, by using this method it will probably be advisable to wait as late as August 10, if necessary, to plant the second crop in order that the seed may be well sprouted.

WANTED—BOARD FOR THE SUMMER.

Tom W. Jackson, in Brooklyn Standard Union
For a vacation we would go To some place where the rates are low, Where flies in the morning do not bite Nor skeeters sing around at night. Where we could rest our weary dome Upon a bed like that at home. Where we could get fresh garden stuff, Where chickens are not old and tough. And for a lake we also wish Where we'd be sure of catching fish. A cool delightful charming spot Where it is never sizzling hot. Where we would hear not, night 'or morn The tooting of an auto horn. Where dogs would not bay at the moon Or phonographs emit a tune. Where we could drink from bubbling springs And not absorb tadpoles and things. Where every road was arched with trees, Where one could always find a breeze. Where one could on a picnic go, Where poison ivy does not grow. To find such place as we've in view We've looked the catalogues all through. Alas we must say with regret We haven't found the place as yet.

AFTERMATH

The war, they say, is over, but we're paying taxes yet. We have to give until it hurts, and so we do, you bet. The income tax hits some of us and hits us where we live. And none of us need look around to find a chance to give.

We've taxed a lot for "luxuries," though some of them we need. And prices shoot up all the time because of some one's greed.

We have to pay what dealers ask without a chance to choose. And the cobbler charges three dollars to resole a pair of shoes!

The workman is master now, he fixes his own pay. He wants to work two hours a week for fifteen dollars a day.

The wretch who gets a salary sees his happiness a wreck; He'd like to get an increase, but he gets it in the neck.

The wicked war drew in its train death, misery and debt. We're suffering from its evils, and we can't see daylight yet.

The prospect of improvement still seems distant, dark and dim; If you could reach the Kaiser now—what would you do to him?

—Somerville Journal.

LETTERS FROM OUR READERS.

Brandenburg Home Coming.

To the Editor of The Breckenridge News: The home coming at Brandenburg seemed a wonderful success. One of a great gathering of people, and magnificently cared for in every respect in the shape of a grand supply of the best of eats, including country ham, fried chicken, pickles, cakes of all the known varieties, and the same thing in the pie line, to satisfy the most fastidious taste. There was an abundance of good ice water on the ground too. It was strictly a home coming social affair of seeing and visiting with old acquaintances and forming many new ones.

The people of the town, and surrounding county, in my opinion deserve great credit and honor in holding up the reputation of the hospitality of the town and county. Pen nor words can give the affair sufficient credit. Those that were not here were asked about and thought of. I know this to be true in my case of inquiring of my sisters and brothers.

They were here from New York to California, with many States registered as their present abiding places. It was truly one great gathering and meeting of father, mother, brother, sister and friends—One long to be remembered.

ODD ITEMS

FROM EVERYWHERE.

Dr. Oscar H. Brann, of Augusta, Me., had a Red Bone coon dog shipped to him from Arkansas. The dog ran away after the doctor had had him for about three weeks and the doctor inserted a small "lost" ad in the local paper. In the town of Wells, 68 miles from Augusta, just one man takes the paper and he saw the ad and he had the dog. All told, the animal has cost the doctor so far about \$70.

Wesley Sheldon, a 14-year-old boy of Ashburnham, is the winner in the Worcester county farm bureau bread-making contests, in which scores of girls completed from every city and town in the county. In three months he made 58 loaves of bread in 19 bakings, did housework for 76 hours and spent 48 hours doing errands for his mother.—Boston Globe.

NOTICE

Accidents at any time may cause electric light wires to break and fall to the ground as they did Saturday night, July 3rd caused by wires coming in contact with branches of trees, etc.

Extreme caution should be used in such cases and no one should touch or go near a wire hanging from a pole or tree at any time as they are deadly and may cause instant death should they be touched.

Parents should teach their children the danger of high voltage electric wires as scores of innocent people are killed each year by coming in contact with "live" wires.

MANGO FRUIT IS
BETTER VALUED

Overcomes Its Bad Reputation For Being a Poor Fruit. Mango Trees Valued Highly

The East Indian mango is one of the great fruits of the world. To those who have really tasted the good sorts of it the peach loses its place of highest honor. But the early travelers were more interested in extolling its peculiarities than in extolling its wonderful fragrance and the depth of its flavors, for they told the plum and cherry eating inhabitants of the British Isles that the mango resembled a ball of tow soaked in turpentine and molasses, and said further that in order to eat it you must undress and climb into a bathtub and that after you ate it you must comb its yellow hairlike fibers out of your teeth.

No other fruit in the world has been so maligned. The mango trees, which are now loaded with their golden fruits in south Florida are so valuable that the mayors of the towns of South Florida are being beseeched to keep the boys from stealing the fruit from the trees, not because they are balls of tow soaked in molasses and turpentine but because, as they hang on the tree, they are worth 25 or more cents apiece, and a boy can eat up a five-dollar bill's worth in the time it takes to tell about it.

About Two Varieties.
The Office of Foreign Seed and Plant Introduction of the United States Department of Agriculture has assembled through the work of its explorers and through exchange with the British East Indian departments of agriculture, one of the largest collections of selected mango varieties in the world. There are now fruiting at the Plant Introduction Field Station, Miami, Fla., about 20 varieties this year, and these represent the selections from more than 70 sorts of this great fruit. Some of these have scarcely more fiber in them than a freestone peach and can be cut open lengthwise and eaten as easily with a spoon as a Rocky Ford cantaloupe. They have an indescribably agreeable aroma reminiscent of pineapples. The mango tree, when it is in bearing, is

a gorgeous sight, for it is a large long-lived tree and the golden-yellow fruits as they hang in great clusters from the dark-green foliage make one of the great tropical plant sights of the world.

To anyone living within reach of the Miami Plant Introduction Garden on Brickell Avenue it would be worth a long motor ride to see this remarkable sight.

The mango has come as a tree crop in Florida and, although it is tender and can not be grown above the line of heavy freezes, it is destined to add greatly to the charm of life in the tip end of the Florida peninsula.

EQUIPPING FARM WITH ELECTRICITY

Power From Small Stream Fills Farm and Home Needs Eases Burdens of Housewife.

Many farmers unknowingly have on their farms a source of power that could be put to work at very little expense and could be made to fill many farm and domestic needs. This is the stream, large or small, that now runs away in wasted energy. Particularly at this time, when there is a great shortage of labor on the farms, it is desirable that the farmers take advantage of every possible means of utilizing power. Electricity, too, for farm and domestic uses benefits the farmer's wife as much as it does the farmer

himself, for it relieves her of much of the drudgery of housework and adds greatly to the comfort of farm life. The farmer's needs go hand in hand with those of the wife, so, in considering the size of the power plant to be installed, he should include her requirements as well as his own. The desirability of a dependable, convenient, and cheap supply of electric current for use for light and power purposes on country places is so manifest that one is justified usually in going to some lengths to secure it. It is advisable to put in a plant somewhat larger than the needs of the moment require. An additional horsepower or two will not greatly change the first cost, while use will always be found for any original excess.

Supplies Over 10 Horsepower.

A stream 10 feet wide with an average depth of 2 feet and flowing at the rate of 2 feet a second under a head of 5 feet is capable of supplying over 10 horsepower, according to estimates made by engineers of the Division of Rural Engineering, Bureau of Public Roads, of the United States Department of Agriculture that have been investigating the utilization of farm streams as sources of energy for generating electricity. Ten horsepower is equivalent to about 7½ kilowatts, which is sufficient electricity for all lighting on the average farmstead and for operating motors for many of the usual needs for power, such as the washing machine, milking machine, separator, churn, feed grinder, fanning mill, etc. If the head could be made 10 feet instead of 5, the horsepower could be doubled. Or if the stream were twice as wide or twice as deep with but a 5-foot head the result would be the same.

The minimum condition under which an installation should be considered are, roughly, a flow of 100 gallons per minute and a head of 10 feet, or the equivalent. Under these conditions the amount of electricity generated continuously is small, but by permitting the plant to run continuously and storing the current generated in storage batteries, a supply may be always at hand for the lighting and small power requirements of the farm.

Small and Large Plants

A plant capable of furnishing current for as many as 50 to 100 lights for the house, barn, outbuildings, yard and drives; providing ample current for washing, ironing, vacuum cleaning, electric fans, toasters, percolators, hot plates, sewing machine, etc., for all cooking, heating of water and the house in the coldest weather, as well as for operating motors for all the various farming operations even during thrashing time, necessarily must be considered the exception. On the other hand, the smallest plant which is worthy of consideration is one having a capacity of but 8 to 10 lights.

Between these two extremes, there exist to-day on our farms the means of developing thousands of plants large enough to supply between 5 and 10 horsepower during all seasons of the year. It will be found that these plants will fill the needs of the average farm and provide an excess for emergencies. The cost may be considered well within the reach of thousands of owners today.

Where conditions offer the opportunity for development, the first step is to determine the quantity of water which is available. This may be done preferably by either, the weir or cross-section velocity methods. Unless the stream is of such width as to entail too large an outlay for the construction of a weir dam, the former method should be used as more accurate results are obtained with it. Neither method requires any special technical skill if one will follow directions carefully. Both methods are described fully in Yearbook Separate 770, "Electric Lights and Power from Small Streams," copies of which are available for free distribution from the Division of Publications, United States Department of Agriculture.

CHURCHES ATTRACT CHICAGO STUDENTS.

Chicago, July 7.—Nine out of every ten University of Chicago undergraduates regularly go to church, it is revealed in questionnaires filled in by 2,065 men and women students in the course of a social survey of the campus activities.

The questionnaires made public today showed that two out of every five men and one out of every three women earn a part or all of their college expenses.

In reply to a question asking the different forms of social service in which they were engaged 216 men and 296 women stated that they shared at home the duties of making beds and sweeping the floors and washing the dishes. Another popular form of social service was "teaching English to foreign students," but one student answered this question: "Teaching Chinese to English."

GERMANY PROVIDES FOR ARMY OF 100,000.

Berlin, July 7.—The budget committee of the Reichstag today set aside 196,000,000 marks in the supplementary estimates for the construction of merchant shipping. Ship yards will receive subsidies in monthly instalments, according to the progress of construction.

The Council of the Empire sanctioned the expenditure of 2,500,000,000 marks for the upkeep of an army of 100,000 men.

Commenting on the Spa conference the majority Socialist newspaper Vorwaerts says: "In respect to the size of her army Germany's aims are identical with those of the Allies; namely, the formation of an army adequate to protect the republic from plots and conspiracies."

WIFE IS LIKE A NEW PERSON NOW

Kentucky Farmer Says Nothing Helped Her Until She Took Tanlac—Suffered 20 Years.

Remarkable indeed was the statement made by W. T. Walker, a prominent farmer, living at Shepherdsville, Ky., R. F. D. No. 2, while in Louisville a few days ago.

Mr. Walker declared that three bottles of Tanlac has done his wife more good than all the other medicines she has taken in twenty years put together.

"For twenty years," said Mr. Walker, "my wife had been unable to eat anything without suffering terribly with indigestion. She had such violent cramping pains in her stomach at times that she could not straighten up; she was constipated all the time and often got so dizzy she would nearly fall. She had no strength and her nerves were so shattered that she could hardly sleep at all."

"Nothing ever helped her until she got Tanlac and that's saying a good deal, for she has tried everything. Tanlac helped her right from the start, and while she has just finished her third bottle she is already like a different person. Her stomach is in such fine condition now she can even eat pork or anything else and never has a pain or an uncomfortable feeling afterwards. She is no longer constipated and never has a dizzy spell, and her nerves have quieted down until she sleeps just like a child every night. Tanlac is bound to be a fine medicine to do what it has for my wife after she had suffered so long, and I will recommend it to anybody."

Tanlac is sold in Cloverport by Wedding's Drug Store, in Kirk by Mattingly Bros., in Addison by L. D. Addison, and in Ammons by Wm. H. Dutschke.—Advertisement.

DON'T TAKE A CHANCE WITH FIRE.

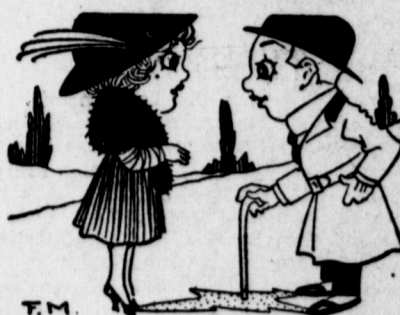

"It never pays to take a chance with fire," says a circular issued by the Forest Service, United States Department of Agriculture, in its campaign against forest fires. "If you have got to gamble take a 'flyer' on the stock market or play the ponies, but don't take a chance on fire."

"Every thousand feet of green timber near your home is worth at least \$10 in wages to you and your neighbors, besides its stumpage value to its owner. If it is on national forest land you are part owner, and if it is destroyed by fire you lose both values."

"Burned timber pays no wages," the circular says. "The prosperity and development of your locality is going to depend upon keeping that timber green."

"Don't take a chance with fire yourself and don't let your neighbor do it. When you burn brush take every precaution to obey the law and see that your neighbor does. Remember that your home and his can go up in smoke from just one piece of carelessness."

"The biggest fires in history were started by those who didn't think the woods would burn. Be as careful of fire as you are of powder; it's just as dangerous."

WOOL MARKET SOUGHT IN EAST

Kentucky Clip of One Million
Pounds To Be Offered On
Larger Market.

Lexington, Ky., July 8.—The state Central Wool committee meeting today decided to send John R. Humphrey head of the department of markets at the University of Kentucky, to New York, Boston and Philadelphia to study the wool situation and to decide to which city it would be best to send the Kentucky wool pool of 1,000,000 pounds for sale.

The decision will be made in the east, and while there he will arrange warehouses to receive the clip. Shipment will be made from the various counties immediately on Mr. Humphrey's return. A number of counties not already in the pool presented applications for admission today. Members of committee present were Lyman Yancey, Owensboro, Walter Meng, Paris; Dr. R. L. Stevenson, Lexington, chairman. The committee has received a number of letters of praise from several national farm publications for rejecting the bids at the state central wool auction last week, when it was decided to send the clip to a larger market.

What to Do With Leftovers.

One of the ways of disposing of leftovers is not to have any; but even in the best-managed households there is bound to be some foods left over. We do not wish to be niggardly, nor yet so profuse in our providing that there is any great amount of food left over.

A small dish of corn which has been served as a vegetable may appear again in the form of a few fritters as a garnish for a dish of chicken which was just enough to go around. The corn is saved and the chicken is thus sufficient.

Fish Balls Baked.

Take one cupful of cooked rice and one cupful of flaked cooked fish, one egg well beaten, a tablespoonful of strong cheese, a teaspoonful of lemon juice, and salt and pepper to taste. Form into balls, place in a buttered pan and bake a delicate brown. Serve with slices of buttered toast.

Salmon Salad.

Any bits of left over salmon, if mixed with coconut, adding a few string beans or chopped pickle and any good dressing, make an appetizing salad. Use lettuce as a border or garnish to the platter of salad.

Sour Cream Filling.

For a layer cake, take thick sour cream—not too sour—whip and add chopped raisins and a few coarsely minced nuts, a little powdered sugar; mix all together, add a few drops of any flavoring extract and spread over the cake. Sour cream cooked with equal parts of brown sugar until thick, to which is added a few nuts, makes a most delicious cake filling and frosting. Sour cream may be used in any salad dressing which calls for sweet cream, making a dressing equally good. Most boiled dressings, as well as mayonnaise, are improved by the addition of cream; sour cream whips as well as sweet and takes the place of sweet cream.

Brown Betty.

Place alternate layers of chopped juicy apples, with bread crumbs, in a buttered baking dish, having the crumbs at the bottom. Add cinnamon or nutmeg with a little brown sugar and bits of butter over each layer. Finish with crumbs and bake for an hour, covering the dish at first. Serve with a hard sauce.

Five Minute Chats on Our Presidents

By JAMES MORGAN

(Copyright, 1920, by James Morgan.)

THE BIG STICK

1903—February 6, Roosevelt induced Great Britain and Germany to arbitrate with Venezuela. November, the Panama revolution.

1905—May 12, brought Russia and Japan to agree to discuss peace. August 29, the peace of Portsmouth.

1906—Roosevelt awarded the Nobel peace prize.

1918—January 6, death of Theodore Roosevelt, aged sixty.

At the crackling of a twig in the still depths of the Adirondack mountains Roosevelt turned to see a guide coming out of the woods with the unexpected news that McKinley's condition was worse. Although he hastened to Buffalo, the president had died 13 hours before the vice president arrived.

At the outset of Roosevelt's administration a fearful citizen begged the rough rider not to permit his fighting spirit to plunge the country into an international war. "What!" the president exclaimed. "A war, and I cooped up here in the White House? Never!"

Many forgot the first half of the old motto that Roosevelt made his own. "Speak softly and carry a big stick." No man ever had a simpler faith in the efficacy of first "talking it over," man fashion, with an adversary, whether a senator or an ambassador.

The meddlesome German kaiser was the earliest to feel the "big stick" to see if it was only stuffed with straw. Germany and a Tory government of England were on the point of seizing territory as a security for some claims

Edith Carow Roosevelt.

against Venezuelan citizens, when Roosevelt succeeded in dissuading England from such a step, but he failed to induce Germany to arbitrate the matter. Thereupon he told the German ambassador that unless the Berlin government consented to arbitration in ten days, he would send Admiral Dewey to stop the Germans from landing in Venezuela. The ambassador protesting that the kaiser could not back down now, Roosevelt replied that he was not arguing with him but was simply telling him what would happen.

After waiting a week without an answer from Berlin, he told the ambassador that he was going to cut the limit to nine days and that unless Germany agreed in 48 hours to arbitrate, Dewey would sail. In 36 hours the ambassador came back with a message announcing that Germany consented.

In good time, Roosevelt employed the influence of his unique position before the world to bring to an end the Russo-Japanese war. Shrewdly choosing the right moment to step in he appealed to the two belligerents with a common sense and a simple directness that a friend would use in bringing together two quarreling neighbors. Afterward he steered the peace conference at Portsmouth against its will steadily toward a peace of reconciliation, an impatient Russian declaring that his "steel wrist" hammered out a treaty that neither of the powers wanted at that time and that "the terrible American president—Il Strenuoso—was capable of locking the conferees into a room and starving them into submission."

Instead of starting a war, the "big stick" stopped the only great war that broke out in the period of its sway. While the Roosevelts were its tenants, the White House was an example and the center of the simple family life of America. . . . "not a second-rate palace," the president said "but the home of a self-respecting American citizen." A few months after graduating at Harvard, Roosevelt married Miss Alice Hathaway Lee of Boston, whom he had met in his college days. This bride of his youth passed from life as her daughter—Mrs. Alice Roosevelt Longworth—entered it.

Nearly three years afterward he sailed from New York, directly following an unsuccessful campaign for mayor to marry a friend and neighbor of his childhood, Miss Edith Kermit Carow, who was sojourning in Europe.

ANNUAL COST OF LUXURIES IN U. S.

Reaches \$8,710,000,000. Tobacco Leads in Luxury List. Candy Makers Reap Harvest.

Washington, July 1.—People of the United States spend \$8,710,000,000 for luxuries annually, according to Miss Edith Strauss, head of the women's activities division of the Department of Justice campaign against high living costs. She classes in her luxury list such articles as motor cars, pianos, carpets and "luxurious clothing," in addition to tobacco, candy, soft drinks and the like.

Tobacco leads the list of luxuries Miss Strauss has prepared. For tobacco the population spends \$2,110,000,000 each year. Cigarettes bring \$800,000,000, snuff and loose tobacco a like sum, and cigars \$510,000,000.

According to her list, approximately \$2,000,000,000 goes each year for motor cars and their parts. Candy makers reap a harvest of \$1,000,000 and \$500,000,000 is spent annually for chewing gum. Soft drinks cost the public \$350,000,000; perfumery and cosmetics, \$750,000,000; furs \$300,000,000; carpets and "luxurious clothing" \$1,500,000,000; toilet soaps, \$400,000,000; pianos, organs and phonographs, \$250,000,000.

"The labor and capital employed in producing these luxuries might otherwise have been turning out necessities—clothes, fuel, shoes, houses, food,"—she said. "In other words, the Nation might have had more bread if it had had less cake. And, as is always the case, the dancier is paying the fiddler. In this instance, the luxury consumer is paying the higher price for his necessities because he is abnormally consuming luxuries."

Miss Strauss said the statistics were collected by the Treasury Department.

Get away from the tiresome job of pitching hay onto the wagon in the field. You can do this and still require less farm help and harvest the hay quicker. You can save 50c to \$1 in expense per ton. Use a New Deere Hay Loader—the loader with the flexible, floated gathering cylinder which automatically adjusts itself to handle successfully either the lightest swath or the heaviest windrow.

We would like to show you one of these loaders, and especially the floated gather-

ing cylinder with its strong spring steel gathering teeth which pick up only the clean hay. Come in Saturday and let us explain to you why it puts the hay on the center of the wagon. Ask us about the automatic coupling—how the loader can be uncoupled by the man on the top of the load.

While you are about it, examine the wheel-barrow mounting of this loader. Notice how the weight is carried on the hubs, causing the wheels to run true.

3,374 STRIKES AND LOCKOUTS IN 1919

Affected 4,000,000 Workers, Nine Involving 60,000 Each

Washington, July 7.—Strikes and lockouts in the United States in 1919 totalled 3,374 and affected more than 4,000,000 workers, according to a review issued today by the Department of Labor. Approximately one-half of the strikes occurred in five States—New York, Massachusetts, Pennsylvania, Ohio and Illinois.

Although there were thirty-seven more labor conflicts reported last year than in 1918, the total for 1919 was materially under that of 1916 and 1917. On the other hand, no strike in 1918 involved as many as 60,000 workers, while no less than nine walkouts last year interrupted the labor of more than 60,000.

The department's review attributed the absence of violence in labor controversies during 1919 to less frequent use of strike breakers.

PLANS MADE FOR MIL-LION DOLLAR STEAM-BOAT ON OHIO RIVER.

Memphis, Tenn., July 12.—Plans for the formation of a \$1,000,000 Mississippi and Ohio river steamboat organization to restore traffic into and out of Memphis were made at a meeting of representatives of twenty-five manufacturing and jobbing houses here. It is planned to put sufficient steamers in the trade to give Memphis and other points from New Orleans to St. Louis and Cincinnati service similar to that they enjoyed before railroads destroyed the commerce of the river.

A committee was appointed to report on the number of boats necessary, the cost of maintenance, operation and probable limits of the service.

It is planned to get the service under way during the summer and before the advanced rail freight rates become effective.

Robert Woodruff says: "My premises were infested with rats. I tried RAT-SNAP on friend's recommendation. Next morning found seven dead rats in bin, two near feed box, three in stall. Found large number since. No smell from dead rats—RAT-SNAP dries them up. Best thing I have ever used." Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by Conrad Payne & Co., Cloverport, Ky., and B. F. Beard & Co., Hardinsburg, Ky.—Advertisement.

WOMAN SUFFRAGE GETS SET-BACK IN VT. AND FLA.

The Governors of the states of Vermont and Florida have refused to call special sessions of their legislature to consider and vote on the national woman's suffrage amendment to be constitutional.

Love Note Admitted as Will.

One of the queerest wills ever admitted to probate in San Francisco is a love letter, written by Harry F. Heine, a San Francisco artist, to Carmelita Cadogan, his fiancée. The letter was written by Heine two weeks before he fell in action in France. In it he expressed the wish that all he owned should go to Miss Cadogan in the event of his death.

Fine Results From Simple Dyes.

A demonstration held in London by the K. G. Guild of Design and Crafts showed the beautiful results produced by ordinary methods of dyeing. Some woolen stuffs woven by members of the guild with primitive apparatus were dyed with privet, bracken, gorse and other well-known plants and even with soot from the chimney, the last producing a beautiful old gold tint.

CONFERENCE AT KAVANAUGH CAMP

Rev. J. R. Randolph To Attend Teachers Training School Next Week.

A number of important Methodists next few weeks at the Kavanaugh Camp Grounds, Crestwood. The first gatherings will be held during the week of the Conference Training school for the two conferences, Louisville and Kentucky, which will open on July 20, and continue through July 26. This will be followed, July 28, to August 3, by a convention of the Methodist Girls' Missionary Society, and on August 13, the preaching to be done by the Rev. Carl Gregory, Owensboro.

The religious training school will be conducted under auspices of the Kentucky and Louisville conferences and the general Sunday-school boards of the Southern Methodist Church. This will be the first training school at Kavanaugh Camp and will be modeled after the famous training school of Southern Methodism held every year at Lake Junaluska in North Carolina.

A number of Sunday-school specialists have been secured to conduct the school, among them Prof. J. H. Montgomery, Richmond, Va., who will be general director; Miss Mary Alice Jones Bruce McDonald, South Carolina, junior work; the Rev. C. O. Shugart, Texas, young people's work; the Rev. Emmett Hightower, Nashville, adult work; Dr. E. B. Crooke, Virginia, pupil study; Prof. B. T. Spencer, Winchester, Ky., methods of teaching; the Rev. Dr. W. R. Bourne, Louisiana, organization and administration.

Frang H. Gregg, of the Louisville Y. M. C. A. will be the director of recreation.

The conference is planned for all pastors, Sunday-school superintendents and teachers.

"RECOGNIZED LEADERS"

The "QUAKER MAID" has long been recognized as the leading Retail Grocer in the city of Louisville and larger towns of Kentucky and Southern Indiana. This is due to our policy of selling only Standard Advertised Brands of food products at our well known Everyday Economy Prices. Under our modern system of merchandising there is only one profit, from producer to you. We buy only from manufacturers and sell only to consumers. Our prices are short of all unnecessary expense, therefore, in trading with the Quaker Maid you are not called on to pay for Credit, Bad Debts and Jobbers' Profit. Add to this the fact that we are close carload buyers of every item in the Grocery line and you have the reason why Quaker Maid prices are always so much lower than others are compelled to charge.
